"Nothing compares to the simple pleasure of riding a bike." John F Kennedy

The Durham Bicycle Cooperative is an all volunteer non-profit 501(c)(3) community bicycle project. We believe bicycles have the power to make our local communities a better place through sound environmental practices, a commitment to sustainable economics and social equality, involvement and outreach with our local community, and promoting cycling as a healthy fitness and wellness activity.

Come ride with us to make Durham an even better place!

Learn It

Learn hands-on bike repair and maintenance with volunteer mechanics.
We will teach hands-on repair skills, during both open shop hours and special clinics, in order to empower program participants to fix their own bicycles. We will strive to be economically accessible, open, and inviting to all members of the community. We will collaborate with other non-profits and bike projects to help support our common vision.

Earn It

Earn a project bike for a small fee or by volunteering your time.
We will solicit donations of unwanted bicycles. These bicycles will then be available at low cost or in exchange for volunteering. Bikes and parts that are truly unusable will be separated out and taken for metal recycling to help keep items out of the landfill.

Fix It

Repair your bike withan extensive set of tools and recycled bike parts.
We will own or lease a physical location that will function as a bicycle repair facility for the benefit of our members and the general community. We will operate a mobile repair clinic that will be taken to different locations around the city and offer free bicycle repair.

Ride It

Explore, commute, have fun! Help make biking accessible for everyone in Durham.
We will raise awareness of cycling as a low-impact fitness activity. We will organize and promote our own and other local organizations' bicycle rides.We will organize fundraisers and other bicycle-themed social events to expand cycling culture and encourage networking in our community.
